Live Booking Screen
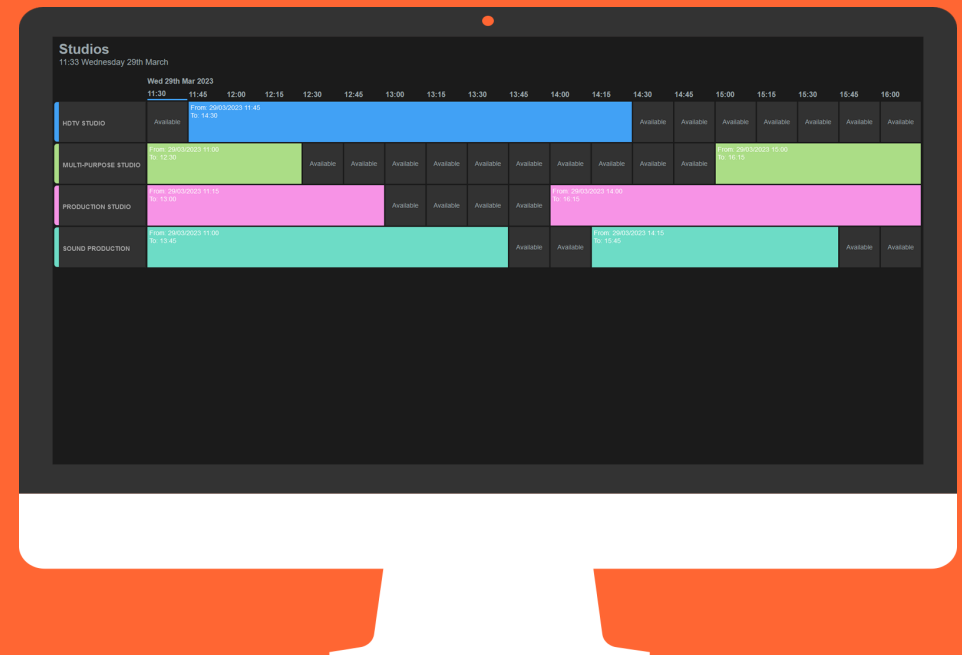

Easily show room availability and booking status

Works on any size device, from touch-screens
to large displays.

More information

Key Features

- Independent of any hardware — simply needs access to internet

- Live information about status and availability of rooms, PC's or any resource

- Can be used with touch screen technology to make bookings

"We have several TV displays showing students and staff availability and bookings against rooms in the building. Straightforward to set up and no need to buy any special hardware."
