# Shared PC Management

Ensuring fair access to physical or virtual machines

Many universities have limited information about who is using computers; when and how. Our shared PC management tool solves this issue.

More information

## University Benefits

- **Broaden locations:** Resources in more appropriate places

- **Increased student satisfaction:** Shows visibility and provides fairness of use

- **Better tracking:** Highlights demand of resources and locations of use

- **More efficient planning :** Budget and resources

- **Allocate costs:** To courses or departments based on usage

## Student Benefits

- **Visibility:** View available machines on a mobile device

- **Confidence:** Book PC time for projects in advance

- **Fairness:** Stop unfair and selfish use of PCs

- **Instant book:** Scan to book using QR codes and book instantly

## Features

- **Flexibility:** Laptops, PC's and Virtual Machines

- **Permissions :** The right student access

- **Instant booking:** QR code booking method

- **Booking in future:** Time slots can be reserved

- **Auto 'free-up':** If a no-show

- **Reporting dashboards:** MS Power BI
