## 11 Store Desk

Collection & Return — Technical Tool

This feature is designed to make it quick and easy to manage collection and return of equipment from a 'store' style operation.

More information

How does it help you

- **Reduces queue time:** Efficient, simple process

- **Increases speed:** Using kits, families and barcodes

- **Reduces risk:** Screen alerts to show Risk Assessments, Training or other issues

- **Plan in advance:** Pick lists allows you to prepare bookings in advance
