Management Dashboards

Using Microsoft Power BI

Live information & charts created by Siso.
Helping you view trends, 'drill-down', share
information and spot issues quickly.

With Smarthub, I know...

- Which equipment is used most often – do I need more or less?
- What equipment does a course use and how much does it cost?
- What do I need to replace next year? What will be the cost?
- Are there items/brands that cost more than expected?
- Have we got under used, duplicate equipment in different stores?
- How well utilised are the spaces/rooms we have?
- Which equipment has not been used for the last 12 months?

How it helps

- Ensure budget matches actual needs
- Help support & build business cases
- Reduce unnecessary expenditure
- Identify problem areas in detail
- Quickly spot important trends
- Estimate future requirements

Features

- Live dashboard charts : Data is always up to date
- Pre-built templates: Can be used straight away to get benefits
- Drill-down: Showing years/semesters/months/days
- Filtering tools: Quickly focus on courses, user levels, categories
- Custom charts: We can quickly build charts for you
