Training & Workshops

Online training and in-person events

These Smarthub modules mean you can ensure staff and students are qualified before having access to equipment, rooms and resources.

Benefits

- **Less stress for technicians:**
Plan workshop sessions and invite students via a calendar
- **Improves student experience:**
Easily see what equipment requires training before booking
- **Increases student satisfaction:**
Online Training can be done at a time to suit them
- **Reduce risks:**
Screen alerts to the technician shows training issues
- **Saves technician time:**
Allows training to be delivered online

Key Features

- Link to in-house or external training videos
- Have training tests under exam conditions
- Workshop calendar to sign-up to events
- Mandatory training before any bookings

Many universities take advantages of these system features, to ensure only qualified people have access to equipment of rooms. For example, in the last 12 months Art University Plymouth have conducted **over 150** training/workshop events.
